### **Chemical Injection Mortar for Anchoring Applications**

		Fast curing injection mortar for high loading in various concrete applications.	HIT-Z: M8-M20 HIS-N: M8-M20 HIT-V: M8-M30	• •	•	0		•	•	•	•	•	•	•	•	•	•
		<ul> <li>HIT-RE 500 V3</li> <li>Slow curing injection mortar with high loading for both hammer and diamond cored holes in concrete as well as approval for post-installed rebar applications.</li> </ul>	HIT-V: M8-M30 HIS-N: M8-M20	• •	•	0	0	•	•	•	•	•		•		•	•
		HIT-RE 100 Versatile Slow curing chemical anchor for Cracked and Un-Cracked Chemical Anchors	HIT-V: M8-M30	 • •	•	0	0	•	•	•	•	•		•		•	•
S		Fast-curing injection mortar for all standard applications in concrete, masonry as well as retrofitting reinforcement connections.	HIT-V: M6-M16 HIT-IC: M8-M12	•		• •	0	•	•	•	•	•	•	•			•
Icho		<ul> <li>HIT-MM Plus</li> <li>Wide range of fastening applications in the medium load range in hollow block (with plastic sleeves), solid block and un-cracked con- crete where no approval is required.</li> </ul>	HIT-V: M8-M24 HIT-IC: M8-M12	•	•	• •		•	•	•	•	•					
I An		Fast-curing injection mortar for non-critical applications in concrete and masonry.	HIT-V: M8-M16	 •	•	0 0		•	•	•	•	•
